

- We guarantee to accomplish the learning objectives of each program. After attendance, should participants not understand some of the information or be unable to perform expected behaviors and skills, we will work with those students at no extra charge to improve their comprehension.
- We stand behind this guarantee provided:
- The Client and Life Learning Institute agree to the learning objectives for each session.
- The Participants fulfill their responsibilities to do the assigned work, attend required classes, do required outside-class assignments and participate fully in the class activities.
- “Student and Teacher Together Make the Learning” is the philosophy of all Life Learning Institute’s training interventions. All learning materials and activities are selected specifically to accomplish the mutual objectives.
- The client needs drive the objectives.
- This guarantee does not apply to students who do not attend every full session.

**Learning Contracts:**

For the most effective learning, we recommend participants complete a *Learning Contract*. The Contract should be developed with any people involved in or impacted by the successful completion of training – supervisor, co-workers, instructor, significant personal support, etc. Learning Contract forms are available from Life Learning Institute only through our training programs.
